Jesus Torres Software Engineer

(760) 515-9294 • *j.torres3.dev@gmail.com* • **Linkedin:** *TorresjDev* • **GitHub:** *TorresjDev*

_____*Education*_____

- **West Texas A&M University** | *B.B.A. - Computer Information Systems* | *01/2024-present*
  - *G.P.A: **3.6**   -Credit Hours: **45**   - Expected Graduation Date: (**May 2026**)*
- **College of the Canyon** | *Business Administration - **29** credit hours* | 08/2020–06/2021

_____*Skills*_____

- **Languages:** *HTML5 | CSS3 |* JavaScript *| TypeScript | C# | T-SQL | Python | JSON |*
- **Frameworks:** *| .NET | Node.js | Express | Mongoose | jQuery | React | NextJS | Tailwind*
- **Tech-Tools:** *Git | GitHub | Git Bash | VS Code / DevTools | Microsoft SSMS | MongoDB |* Jupyter *| Postman | Yarn | NPM | REST API | Ajax | Agile*

_____*Experince*_____

West Texas A&M Univ. | *CIDM Programmer & Tutor* | *Remote* | *05/2024–present*
- Built a ReactJS web app for a finance course, ensuring seamless user experience.
- Tutor for CIDM programming courses, aiding students in debugging and problem-solving.

Sabio Enterprises Inc | *Software Engineer Instructor* | *Remote* | *11/2022–06/2023*
- Contributed to a diverse team, employing agile methodologies to deliver comprehensive full-stack software solutions in web applications and mobile applications.
- Instructed daily software programming reviews and coding lectures, providing insightful concepts in the software development lifecycle with a team of about *30* developers.
- Assisted developers in debugging and problem-solving during curriculum development.
- Achieved a *90%* satisfaction rate in creating testing files for React and JavaScript.
- Mentored and guided *15-20* developers' daily programming curriculum: JS, React, C#, and SQL.

Institute to Advance Diversity | *Software Engineer* | *Irvine, CA* | *02/2022–08/2022*
- Conducted peer planning sessions, code reviews, and collaborative pair programming.
- Managed and maintained relational databases utilizing Microsoft SQL Server Management Studio to optimize data accessibility and integrity.
- Contributed to the Software Development Life Cycle of the application, conducting code reviews, collaborative pair testing and debugging, helping to manage source control.
- Engineered comprehensive components using ASP.NET, MVC, and React, incorporating advanced functionalities that heightened user interaction and user experience.

U.S. Army | *Airborne Paratrooper* | *Vicenza, Italy* | *06/2013–12/2018*
- Led a diverse team of soldiers, including NATO allies, in various airborne operations. Fostering strong teamwork and communication skills in challenging settings.
- Adapted quickly to dynamic environments, demonstrating strategic thinking and effective problem-solving under pressure.
- Executed joint military operations across Europe, strengthening multinational teamwork and achieving high-performance ratings as the U.S. Army's Contingency Response Force.

_____*Awards & Honors*_____

- **West Texas A&M University** | *Dean's Honor Roll* | *Spring 2024*
- **U.S. Army** | *Army Achievement Medal x**7** Awards* | *06/2013–12/2018*

_____*Certificates*_____

- **Sabio LA** | *Full Stack Software Developer Certificate* | *08/2022*
- **FreeCodeCamp** | *Front-End Software Development Certificate* | *12/2020*
